

## Model 50

### *Plastic Tube Sealer*

This machine is perfect for small batch runs, research & lab use or start-up operations.

It's easy, safe and economical to operate, and the heat and cool timers ensure repeatable seal performance time after time.

#### **Performance**

The Accu-Seal pneumatic plastic tube sealer is the economical answer for sealing plastic or plastic lined tubes, and is ideal for use in medical, cosmetic, or scientific laboratory environments. This unit makes sealing plastic tubes easy. Fast and reliable, this machine seals one rack of tubes in the time it takes to prepare a second rack.

A set of two standard size racks are included with each machine. When you order, please send us your sample tubes in order to build your racks. An external air supply is required to run this pneumatic sealer.

#### **Customer Service**

Our sales and technical support teams are ready to assist you when you call. "Talk to a real person", not voicemail, about your application, establishing seal parameters, maintenance or technical support, custom projects or parts and service. "We're listening."

#### **Built-to-Last Reliability**

Accu-Seal machines are designed and built with the highest quality components and manufacturing techniques to ensure unmatched product quality and many years of reliable, trouble-free service. Accu-Seal machines are all designed for easy installation, operation and maintenance.

#### **Two-Year Limited Warranty**

We are confident with the quality and reliability of our products and offer a Two-Year Limited Warranty for most Accu-Seal machines. For further details please contact the Accu-Seal sales department. Accu-Seal machines are designed and manufactured with pride in the USA.
