

Model 60

Industrial Feed-Through Sealer

This pneumatic feed-through Accu-Sealer is our workhorse model custom-crafted from lightweight aluminum and designed for oversized, heavy-duty applications.

Performance

We have completely redesigned the Model 60 structurally and electronically. This pneumatic feed-through Accu-Sealer is our workhorse model that is custom-crafted from lightweight aluminum and designed for oversized and heavy-duty applications. The welded rectangular frame provides the structural stability necessary to make seals up to 10' long and 1" wide. Films can be fed from the front or the back of the machine and passed between the sealing jaws for uninterrupted flow. This rugged and versatile machine allows for easy two-handed operation, with simple Easy-to-read dials and several built-in features to provide optimum operator safety. This unit can also be adapted to an automatic conveyor system, if needed.

Customer Service

Our sales and technical support teams are ready to assist you when you call. "Talk to a real person", not voicemail, about your application, establishing seal parameters, maintenance or technical support, custom projects or parts and service. "We're listening."

Built-to-Last Reliability

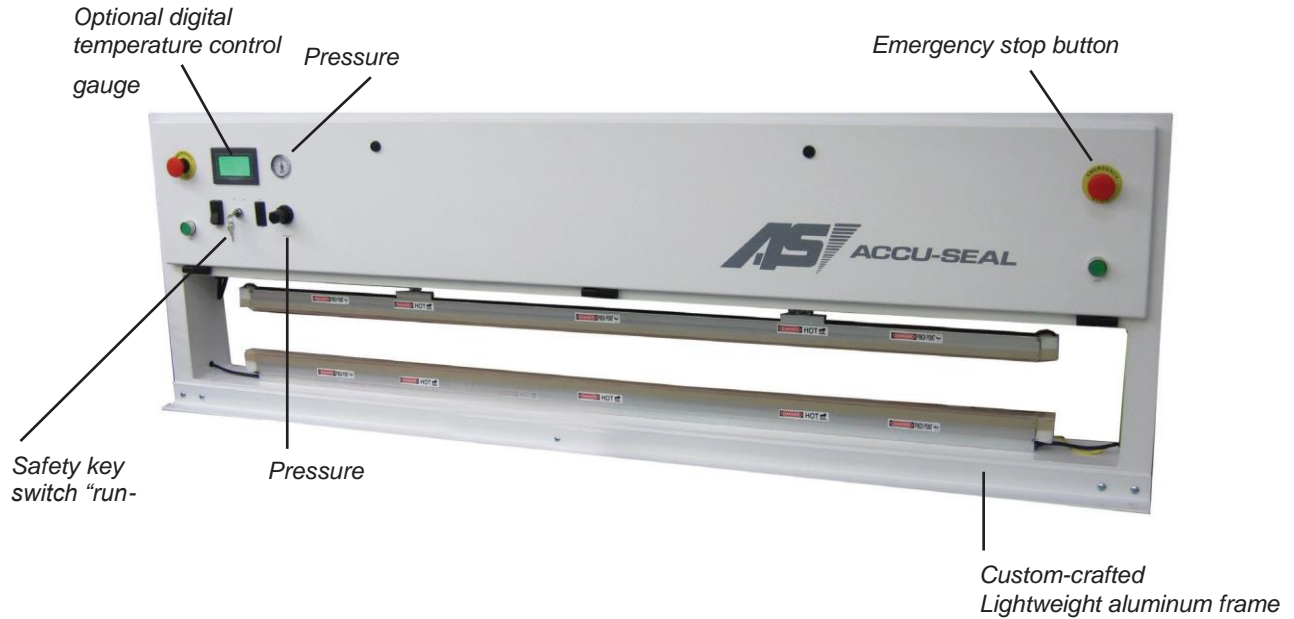

Accu-Seal machines are designed and built with the highest quality components and manufacturing techniques to ensure unmatched product quality and many years of reliable, trouble-free service. Accu-Seal machines are all designed for easy installation, operation and maintenance.

90-Day Limited Warranty

We are confident with the quality and reliability of our products and offer a 90-Day Limited Warranty. For further details please contact the Accu-Seal sales department.

Accu-Seal machines are designed and manufactured with pride in the USA.

Equipment Specifications

SPECIFICATIONS

- Widths: Q-Trim/Seal, 1/8", 1/4", 1/2", 1"
- Lengths: from 40" to 10 feet in 10" increments
- Requirements:
 - Power: 120 Vac, 12 Amps (40")
 - Air: 1.0 CFM @ 80 PSI
- Size:
 - Length: Seal Length + 18"
 - Width: 9"
 - Height: 24.5"
- Approximate Weight: 110 lbs. (40" with 1/4" seal)

BUILT-IN FEATURES

- Pneumatic Jaw Pressure Control
- 10 Second Adjustable Electronic Heat Timer
- 60 Second Adjustable Electronic Cool Timer
- Obstruction Sensing Safety Circuit
- Lockout Control Safety Key Switch

FACTORY OPTIONS

- Temperature Controlled
- Dual Heat up to 60"
- Cutter
- Machine Stand
